STRATEGY FOR THE EXERCISE OF PARTICIPATION AND VOTING RIGHTS ATTACHED TO THE FINANCIAL INSTRUMENTS HELD IN THE MANAGED UCIS

In accordance with the provisions stipulated by art. 35-decies of the Consolidated Law on Finance and art. 112 of the Intermediary Regulation adopted by Consob with resolution no. 20307/2018, Eurizon Capital SGR S.p.A. (hereinafter also referred to as “the Company”) has adopted a set of procedures and measures aimed at:

- monitoring the company's activities pertaining to the financial instruments held in the portfolio of the managed UCIs, when this is required by the characteristics of the financial instruments incorporating the rights to be exercised;
- determining when and how participation and voting rights may be exercised based on a cost-benefit analysis that also takes into account the objectives and investment policy of each managed UCIs.

Within this scope, Eurizon Capital SGR carries out ongoing monitoring of issuer companies’ relevant activities and undertakes – also following the adoption of the Italian Stewardship Principles and related best practice Recommendations for the exercise of administrative and voting rights in listed companies, defined by Assogestioni – to adopt and apply the following strategy for the participation and voting rights attached to the financial instruments held in the managed UCIs, in order to ensure that these rights are exercised to the exclusive benefit of the UCIs’ investors.

On behalf of the managed portfolios, Eurizon Capital SGR participates at the shareholders’ meetings of selected companies with shares listed on the Italian Stock Exchange and on foreign exchanges, taking into account the benefits for the managed portfolios resulting from such participation, as well as the opportunity to influence decisions regarding the shares with voting rights held by Eurizon Capital SGR.

As for the reasons that drive the decisions to exercise participation and voting rights at Shareholders’ Meetings, Eurizon Capital SGR has identified the following quantitative and qualitative criteria:

- participation at all shareholders’ meetings and interaction with the Board of Directors of those companies where Eurizon Capital SGR holds a significant share capital, as identified from time to time within the internal procedures;
- participation at the shareholders’ meeting that are deemed relevant to the managed portfolios’ benefit in order to identify situations of particular interest for the purpose of protecting and supporting the interests of minority shareholders;
- contribution to the election of members of the board of directors or boards of statutory auditors through the slate voting mechanism, representing minority shareholders;
- participation at those shareholders’ meeting approving extraordinary transactions where such participation is needed to support or challenge the proposed transaction, in the interests of the managed portfolios.

Eurizon Capital SGR is not bound by any shareholder voting or blocking agreements.

The participation at a shareholders’ meeting and the exercise of related voting rights is authorized by the Chief Executive Officer of Eurizon Capital SGR on a reasoned proposal from the Head of the Corporate Governance office within Corporate Affairs, in coordination with the Investment Department and the Head of Sustainability.

In this regard, the Corporate Governance office establishes the proposals for the voting instructions, on the basis of analyses, on further examination carried out on public documents, on outcomes of interaction with companies (so called "engagement"), on input from the advisor specializing in research supporting corporate governance decisions and voting recommendations, as well as on input provided by the Investment Department and the Head of Sustainability.

The Chief Executive Officer defines the voting instructions and any specific issues to be presented in the interest of the investors, independent from any influence exercised within or from outside Eurizon Capital SGR, and chooses the best way to attend the Shareholders’ Meetings.

In this respect, Eurizon Capital SGR has defined specific internal procedures that prevent the circulation of information among the different companies of the Group and the Parent company, Intesa Sanpaolo, as regards the exercise of voting rights attached to the managed shareholdings, or internally to each company among the organizational structures subject to segregation (so-called "Chinese Wall").

The following are considered by Eurizon Capital SGR as conflict of interest situations: the exercise of voting rights attached to the financial instruments held in the managed portfolios issued by a company of the Group or by companies with which Eurizon Capital SGR, its significant shareholders or Group companies, maintain strategic relationships, or with respect to which other Group companies appoint or designate one or more members of the governing bodies. In this regard, Eurizon Capital SGR has adopted the Protocol of autonomy...
for the management of conflicts of interests issued by Assogestioni for the purpose of the Company's
decisional autonomy pertaining to the provision of management services. As a preventive measure, within
such scope, Eurizon Capital SGR does not exercise the voting right attached to the shares held in the
managed portfolios issued by direct or indirect controlling companies, or with respect to which other
companies belonging to the same Group as Eurizon Capital SGR appoint or designate one or more members
for issuer companies' governing bodies. In such situations, the Company can still aggregate its shareholdings
related to the managed portfolios, in order to contribute to the achievement of the minimum quorum required
by the applicable rules in force from time to time for the submission of candidate slates for the renewal of the
Board of the companies concerned.

Regarding the methods for the exercise of participation and voting rights, in reference to specific shareholder
meetings, it must be noted that the SGR may delegate this function to specialized third parties, providing
explicit instructions for the exercise of such rights. In any case, the SGR does not delegate the exercise of voting
rights attached to shares held in the managed portfolios to any Group companies or to their
representatives, except in the case of another SGR and ensuring that the voting exercise performed by the
delegated subject is in accordance with the interest of the UCI investors and of its clients. If deemed to be
the most efficient way in the interests of the managed products, the SGR reserves also to make use of the
“proxy voting” or the “electronic voting” that may be provided by issuers.

Within the exercise of its rights related to the selection and appointment of candidates to be elected for Board
of Directors or Statutory Auditors of Italian listed companies, as part of the minority slates representing
institutional investors, the SGR shall comply with the principles and criteria defined by the Committee for the
Corporate Governance of Assogestioni, which sets forth the requirement for professionalism, honour and
independence of the candidates as well as the conditions for non-eligibility and incompatibilities. In this regard,
the SGR also makes reference to the Italian Corporate Governance Code for companies listed on the Italian
Stock Exchange, and to international best practices.

As signatory to the "Principles for Sustainable Investment" of the United Nations (UN PRI), the SGR pays
close attention to the policies implemented by the issuer companies in which it invests on behalf of managed
UCIs, in the belief that sound corporate governance policies and practices (incorporating environmental, social
and governance aspects) create value for shareholders in the long term. In this context, the specialized
research used by the SGR to support investment decisions and the exercise of engagement and voting rights
also includes information on issuers' social and environmental responsibilities, aimed at identifying possible
impacts in terms of reputation, competition and business opportunities determined by corporate governance
decisions.

Based on their relevance, the SGR ensures transparency of its voting decisions and its approach towards
voting and engagement in the annual UCIs-related financial statements. The SGR is in any case responsible
for formalizing and storing the documentation related to the decisional process adopted for the exercise of the
voting rights as well as the reasons supporting the decision-making process.

The independent members of the Board of Directors of Eurizon Capital SGR S.p.A. ensure the correct
application of the principles and procedures regarding the exercise of voting rights attached to the financial
instruments held in the managed portfolios, having full support from the specialized Corporate Governance
role within Corporate Affairs and the Compliance & AML function.

The SGR monitors the efficacy of the measures applied to the exercise of participation and voting rights and,
in any case, reviews the strategy adopted at least once a year.

The SGR makes the present Strategy and any future updates available to the UCIs investors at its website
